

## RECOGNISE THE SIGNS AND SYMPTOMS OF LUNG CANCER

A PERSISTENT COUGH

COUGHING UP BLOOD

BREATHLESSNESS

CHEST AND/OR  
SHOULDER PAIN

REPEAT  
CHEST INFECTIONS

HOARSENESS

UNEXPLAINED TIREDNESS,  
OR LACK OF ENERGY

UNEXPLAINED  
WEIGHT/APPETITE LOSS

FINGER-CLUBBING

CHANGE IN LONG-TERM  
COUGH, OR A COUGH  
THAT GETS WORSE

**IF YOU ARE EXPERIENCING ANY OF  
THESE SYMPTOMS, GO TO YOUR DOCTOR.**

Chances are, everything will be ok.  
But if it is lung cancer, getting  
diagnosed early could save your life.
